HIS SPEAKING ENGAGEMENTS

A simple mistake at an indoor climbing gym almost cost Robby everything, including his life. The fall severely broke both of his ankles and put him in a wheelchair for 11 devastating months. This began a downward spiral to absolute rock bottom, shadowed by depression and insurmountable debt pushing him to the brink of suicide.

Robby tells a story of finding a reason to live and his decision to chase a goal most would consider impossible. His 928 day odyssey, takes the audience from the operating table to the vsummit of Mount Everest. Bolstered by awe-inspiring images and first-person footage, get ready for a journey into Everest's Death Zone.

HIS BOOK

Mind Over Mountain has sold over 4000 copies in 15 countries and details Robby's superhuman tenacity and determination. This is a story of a journey into hell, time and again in an effort to rebuild a life worth living for. *Bulk orders can be arranged at a reduced rate.*
